PROJECT

JavaScript Challenge

Hi Brian,

Wonderful work on your JavaScript Challenge project! Your code demonstrates a solid understanding of basic JavaScript. We look forward to your next project!

Best,
Jee
Udacity Coach

Autograding**Meets Specifications**

- All problems pass the autograder.

Function Use**Exceeds Specifications**

- Student creates additional functions to solve all 3 problems.

Comments**Meets Specifications**

- Comments are present and effectively explain longer code procedures.

Code Quality**Meets Specifications**

- Code is formatted with consistent, logical, and easy-to-read formatting as described in the **Google JavaScript Style Guide**.
 - *Suggestion: Be sure to include tags in the documentation. (Ex: @return {Array} The formatted names or @param {Array} names The array of names to modify.)*

PROJECT EVALUATION
